TO: DD/I
DD/S&T

The Director highlighted a memorandum from Deputy Secretary Packard requesting an in-depth study on the merits of high-resolution photography. The Director described Packard's interests in terms of NRO's capabilities to determine what Soviet weapons systems DOD needs to know more about. The Director noted that an appropriate task force
25X1 is being established under [redacted] and concurred in the suggestion that the DD/S&T and DD/I consult with a view toward identifying who will represent us on this task force. The Director asked the DD/I to draft an appropriate response.

Action taken: 19 September 1969

I have discussed this matter with the DDS&T. Because most of the substantive intelligence to be collected [redacted]
25X1 [redacted] would, in the first instance, be of primary interest to OSI and FMSAC, we agreed that Carl would name the CIA observer and draft the response for the Director's signature.
